

Everytime

The Samples

I'm not going home
The same way I came
But, I'll see you tomorrow
On another brand new dayRemember the beach
Remember the cold, cold sea
That washed over us
And washed over you and meEvery time, over you and me
Every time, over you and meThe summer is fast
When nobody knows
The long stretch of highways
How far they go?Sometimes I'm crazy
From waiting so long
To make it so perfect
To fix what was wrongEvery time, over you and me
Every time, over you and meAs darkness falls on me
Like the cold use of words
And out there I can see
The flight of ocean birds
But never asking why
I wonder where they fly?I'm not going back
The same way I came
But, I'll see you tomorrow
On another brand new dayEvery time, over you and me
Every time, over you and meEvery time, over you and me
Every time, over you and meYou and me
