

# I Don't Go Shopping

**Patti Labelle**

I don't go shopping for love  
You're something money can't buy  
I dream in colors  
And my dreams are only shades of you  
So I'm never blue  
I don't go wishing on a star  
Just want to be where you are  
Too many times it felt so right  
But it was just the night, now I see the light  
I don't care nothing 'bout going out  
Now that I found out what it's all about  
Hear me shout, I've saved it all up for you  
And if you feel like I do, well, we're long over due  
I'm never out after dark  
You'll always find me here at home  
And if you decide to stay up late

Hey baby, don't you hesitate  
Oh, I can't hardly wait  
I don't care nothing 'bout going out  
Now that I found what it's all about  
Hear me shout, I've saved it all up for you  
And if you feel like I do, well, we're long over due  
I said we're long overdue  
What about me, what about you? Long overdue  
What about me, what about you? Long overdue  
I don't go shopping, anymore  
What about me, what about you  
Long overdue  
I don't go shopping anymore
