Cape Of Our Hero

Volbeat

All the people ...
They're asking us to share before the new ones dissipate
Opportunity is to find the people powers in themselves
Times when I was breathing it seems more than waiting
Go blindly completely

You tell me how, I can fly away
I believe the beginnings are coming
And you bring me down, then I will fly again
I believe the beginnings are coming

The kingdom of the fathers and the hero's where are you
I'm talking to you every night more than I should do
While I wait when it'll be the day when I can wear the cape
I'm lying on the ground as always staring to the air
Go blindly completely

You tell me how, I can fly away
I believe the beginnings are coming
And you bring me down, then I will fly again
I believe the beginnings are coming

...
We can still see the cloud
We're not too late
... into oblivion

You tell me how, I can fly away
And believe the beginnings are coming
You bring me down, then I will fly again
And believe the beginnings are coming

You tell me how, I can fly away
And believe the beginnings are coming
You bring me down, then I will fly again
And believe the beginnings are coming
