

# Go Home Now

## Skankin' Pickle

Hey, hey2 years, 4 years, what makes it seem so long  
For people to react with such indecency  
I'm making it go, think for a while

There makes are enough for 4, there makes are enough for 4Hey scream, flush the toilet just a thing to do

You've got to stop worrying about the other people's shoes  
You call, I'm scared, why?

I don't know, here's a dollar 23 for you, dollar 23 for youHey, I'm going now  
Want to be involved though it's not really true  
Fat boy on the bike follow us come now  
Is it time for us to go home now?Hey, hey  
Hey, heyMaking ground or so it seems  
Heard the black taxi has left without me  
Call option X, now I'll sit here

Listen to a tape by fear, listen to a tape by fearLie about things, create diamonds with my feet  
Wear keys on my belt though I'm only 8 years old

My shoes have a rubber flap over the toe  
And the kickball's going far, kickball's going farHey, I'm going now  
Want to be involved though it's not really true  
Fat boy on the bike follow us come now  
Is it time for us to go home now?Hey, hey  
Hey, hey  
Hey, hey
