Last Goodbye

Union J

You never wanted to believe
That we'd ever disagree beneath the dream
Now it's cold as ever
I always wanted to deny
But the ocean makes the sky like you and I
It's been that way foreverYeah, we always hurt the ones we love
We hurt the ones we love, we love, we loveBut it doesn't mean that you and I should be alone tonight
Should be alone tonight, tonight, tonightSave the last goodbye for me
One more shiny memory
Always remember
I'll leave the light on for you, for you, for youSave the last goodbye for me
Wake me up before you leave
Always remember
I'll leave the light on for you, for you, for you, for youWe burn so bright before the fall
Engines slowing to a crawl
We have it all
So why are we waiting?
'Cause even though it's hard to hold
No, we just can't let it go
Away, so stay
Keep this light from fading
Yeah, we always hurt the ones we love
We hurt the ones we love, we love, we loveBut it doesn't mean that you and I should be alone tonight
Should be alone tonight, tonight, tonightSave the last goodbye for me
One more shiny memory
Always remember
I'll leave the light on for you, for youSave the last goodbye for me
Wake me up before you leave
Always remember
I'll leave the light on for you, for youSave the last goodbye
Save the last goodbye
Save the last goodbye
The last goodbye, the last goodbyeYou and I can make it through tonight
Make it through tonight, tonight, tonightSave the last goodbye for me
Wake me up before you leave
Always remember
I'll leave the light on for you, for you, for youYou and I can make it through tonight
Make it through tonight, tonight, tonight
