This Place

Kem

There's a fountain of hope
Living water for each of us
There are rivers of dreams
Flowin' through the heartache of this place
There are children that flower the trees
There are voices of people who need
This place
There's sorrow and sadness here
But there's heaven and sunshine too
The spirit of peace moves free and clear
Making way for laughter here
There are children that flower the trees

There are voices of people who believe
In this place
They live and breathe
In this place yeah
There are children that flower the trees
There are voices of people who need
This place
They wanna be in this place yeah
They live and breathe in this place
This place
