

Behind Your Eyes

La Sera

If you let your feelings go, dear
It'll scare you what you'll find
I find them on your street, dear
And you're always on my mind No one needs to know
That you let me in tonight
That you let me see the world behind your eyes
Behind your eyes I want to see us work, dear
To reach the other side
My treachery is love, dear
We're on both ends of the fight We're fighting for ourselves
We're fighting for our lives
Would you let me see the world behind your eyes?
Behind your eyes
Behind your eyes No one needs to know
How scared we are tonight
Would you let me see the world?
Would you let me see the world? (behind your eyes)
Would you let me see the world behind your eyes?
Behind your eyes
Behind your eyes
