

Just A Little Bit

Kids of 88

Working your fingers to the bone
Drivin you mad and he shoulda known
Wrap it up baby im takin you home
Get off your throne i want you alone
Take just a little bit of time
Just to make you feel alright
Just enough to ease the vibe
Hit the lights

You've got pressure dripping off your shoulders
Let me be the one to relieve it
Lets get unprofessional
Don't you know its gonna feel much better with

[Repeat x2]
Just a little bit a
Just a little bit a
Just a little bit a
Its what you need

Feeling the tension, feeling the stress
I've got a notion i want to confess
Looking so good when your hair is a mess
Tearing the buttons right off your dress
Working you over time I'm getting you over the line
I'm climbing your ladder and making you better
'Cause here's what you need

You've got pressure dripping off your shoulders
Let me be the one to relieve it
Lets get unprofessional
Don't you know its gonna feel much better with

[Repeat x2]
Just a little bit a
Just a little bit a
Just a little bit a
Its what you need
