Take Me With You

Matt Pond PA

Take me with you
Out of my mind
Our words collapsing as we leave them behind
My hands knew the cold before I felt your force
When we run away, let's really run
When we come undone, let's really come
It feels good to be gone
It feels good to be gone
It feels good to be gone
It feels good to be gone
Take me with you
Into your grace
When we run away, let's really run
When we come undone, let's really come
It feels good to be gone
It feels good to be gone
It feels good to me
It feels good to be you
It feels good to be
It feels good to be you
Take me with you
Out of my life
Our words collapsing as we leave them behind
My hands knew the void before I felt your force
When we run away, let's really run
When we come undone, let's really come
It feels good to be gone
It feels good to be gone
It feels good to be gone
It feels good to be gone
