

# Black Tower

## Kamelot

Oh Black Tower, unleash your power  
What makes men run and hide?  
I've foreseen the evil in the dead of the night  
As the demons, they dance in my mind  
Telling tales of horror  
And the splendor of their torture  
Burning flames reach for the sky  
The gates of Hell are open wide  
Black Tower  
Black Tower  
Oh Black Tower, why do you devour?  
The souls, they sleep in the night  
Casting evil shadows, signs of no tomorrows  
Why must I fear for my life?  
Telling tales of horror  
And the splendor of their torture  
The burning flames reach for the sky  
The gates of Hell are open wide  
Black Tower  
Black Tower  
Black Tower  
Now I know it's the truth  
All the evil men do  
They shall pay their dues  
Nightmares tell the truth  
Black Tower  
Black Tower  
Black Tower  
Why must the demons dance in my mind?
