

# My Beautiful Blue Sky

## Moby

Come on baby  
Come on girl  
Come on baby  
Come on girl I love you baby  
I love you now  
I love you baby  
I love you now Look at us, we're beautiful  
All the people push and pull  
But let's just go out and ride  
Talk about the things we try Look at us, we're beautiful  
All the people push and pull but  
they'll never get inside  
We've got too much to hide Come on baby  
Come on girl  
Come on baby  
Come on girl I love you baby  
I love you now  
I love you baby  
I love you now Look at us, we're beautiful  
All the people push and pull but  
let's just go out and ride  
Talk about the things we try Look at us, we're beautiful  
All the people push and pull but  
they'll never get inside  
We've got too much to hide Look at us, we're beautiful  
All the people push and pull but  
let's just go out and ride  
Talk about the things we try Look at us, we're beautiful  
All the people push and pull but  
they'll never get inside  
We've got too much to hide x16  
Look at us we're beautiful
