

Spread a Little Love

Deepest Blue

You try, try to be me
Look at all the things I see
Take away a life today
And be the one Touch, touch all you can
Try to be a better man
To hold away another day
I'll be, Ill be, Ill be, Ill be I do
Let me hold you
Take it all away
Another hand wont stay Oh, just take my hand
And dont be afraid Spread a little love
Spread a little love
Spread a little love
Spread a little love Take my hand
Lose yourself
Dont be afraid
Let me be I know I would
What I would do
Take it all away All I want to be is you
No time for
Take it all away All I ever want is you
All I ever need is you
I do Just take it all away
Live another day
All you need to be
Its all you need to be
