

Feet On The Ground (Myah Marie Demo)

Britney Spears

Things were not progressing
Don't pretend you didnt know
All the bullshit
They were turnin my life into a show
Took some time to heal the wounds i had to improvise
Pay no mind to all the rumors just a buncha lies Fall back fall back
Burnin up all my bridges
Fall back fall back
Makin the wrong decision
Fall back fall back
Im in a new transition
Takin back the reins again
I've changed my ways I can tell you that i feel my feet on the ground again
You can see im firmly standing feet on the ground again
I was lost a while but my feet on the ground again
You cant bring me down i got my feet on the ground again Things were gettin crazy
So i had to strategize
Look at me im changin and its right before your eyes No, its not fine
This is my pride
Lost - to my life
I've had enough of it Fall fall back
Burnin up all my bridges
Fall back fall back
Makin the wrong desicion
Fall back fall back
Lost all of my ambition
Fall back fall back
I've changed my ways I can tell you that i feel my feet on the ground again
You can see im firmly standing feet on the ground again
I was lost a while but my feet on the ground again
You can't bring me down i got my feet on the ground again All of this obsession, isnt it a bit too much?
Cant believe that some of you think i have lost my touch Was a phase
I just have to
Rewind the days
Let me out
C'mon set me free
You were waitin for the new me
Its complete Fall back fall back
You were my inspiration

Fall back fall back

This is my dedication I can tell you that i feel my feet on the ground again

You can see im firmly standing feet on the ground again

I was lost a while but my feet on the ground again

Eyes up on the sky i got my feet on the ground again
