

Suddenly Last Summer (Re-Recorded) [Remastered]

The Motels

It happened one summer
It happened one time
It happened forever
For a short timeA place for a moment
An end to dream
Forever I loved you
Forever it seemedOne summer never ends
One summer never began
It keeps me standing still
It takes all my will
And then suddenly last summerSometimes I never leave
But sometimes I would
Sometimes I stay too long
Sometimes I wouldSometimes it frightens me
Sometimes it would
Sometimes I'm all alone
And wish that I couldOne summer never ends
One summer never begins
It keeps me standing still
It takes all my will
And then suddenly last summer
And then suddenly last summerOne summer never ends
One summer never begins
It keeps me standing still
It takes all my will
And then suddenly last summerAnd then suddenly last summer
Until suddenly last summerAnd then suddenly last summer
Until suddenly last summer
It happened suddenly last summer
