

Walk On By

(Hed) P.E.

Yeah, security
Leave those kids alone, man, bring it
Just walk on by
Dont waste your timeThe door is open, it's sublime
The waters fine, don't drown in the lies
That the matrix constructs to cover up the light
A day in the life of a corporate avengerWhom god sent to offend ya
All day and all fucking night
Born to ride, down for life
I'll be down for whatever, better treat me rightWalk, just walk on by
On, dont waste your time
By, you'll never know me
And this life of mineWalk, just walk on by
On, dont waste your time
By, you'll never control me
And this life of mineThe gods have spoken in written word
The books are open but few have heard
What the mystery teachings are waiting to ignite
Yeah, another day in the life of the peoples defenderWhom god sent to avenge ya
All day and all fucking night
Born to ride, down for life
I'll be down for whatever, better treat me rightWalk, just walk on by
On, dont waste your time
By, you'll never know me
And this life of mineWalk, just walk on by
On, dont waste your time
By, you'll never control me
And this life of mineWhat a shame
We're reading all the wrong books in vain
It's a sin, such a crime
We dance to all the wrong songs in time
We'll have to decideYou will never take control of me
You will never take control of me
You will never take control of me
I wont let you take controlGet up, get upMind your own fucking business
Check it out, man, you do what you do
I'm gonna do what Im gonna do
I'm really not looking for any trouble, man
So just leave me alone, alright? Fuck offWalk, just walk on by

On, dont waste your time
By, you'll never know me
And this life of mine Walk, just walk on by
On, dont waste your time
By, you'll never control me
And this life of mine Fuck you, you cant control me
Fuck you, you cant control me
Fuck you, you cant control me
Fuck you, you cant control me Fuck you, you cant control me
You cant control me
You cant control me
You cant control me You will never take control of me
I wont let you take control
