Stay Up

Evil Nine

Let me start with a soft caress
Wanna show you i'm not like the rest.
So put me to the test.
Anything that you feel let it go.
Wanna take things nice and slow So baby lose control
I want this, more than I want anything, anything
[Chorus]So lets stay up tonite girl, its on
let me sing you a song
so lets stay up tonight girl its on
Let me sing you a song
'cause its all about love tonite
it on you see so stay up with me tonite
so come lay here right next to me
let me show you what love can be
i'll kiss your lips softly
while im looking you right in the eye
girl i'll slowly go deep inside
your heart is what i mean

'cause i want this more then i want anything....anythingg (oh)
(chorus)
So lets stay up tonite girl, its on(can we stay up)
let me sing you a song
so lets stay up tonight girl its on
Let me sing you a song
'cause its all about love tonite
it on you see so stay up with me tonite
oohhh its all about you and me
it right , its right this is where i need to be
so dont leave me dont leave me i need this just as bad as you do
so dont leave me, dont leave me, tonitee
(chorus)
So lets stay up tonite girl, its on(can we stay up)
let me sing you a song
so lets stay up tonight girl its on
Let me sing you a song
'cause its all about love tonite
it on you see so stay up with me tonite (X2)
baby, baby its on you see so stay up with me all night
