

# Gain

## Virgos Merlot

Here I am again  
Going to cure the common cold  
Eat away hunger and  
Get my movie soul and aGonna teach the world to sing  
Give 'em all a hand  
Solve there problems and  
Gonna take a standI look around, come back down  
Try to rearrange it once again  
You hold your own, nervous to be strong  
You got it and you don't know what it isOnce you gain, time after time it's the same ol' wrong  
Change and you change it's the same ol' songI'm bothered by the fact, I cannot take it back  
It goes on record and multiplies it bad and a  
I gotta break it down to it's smallest part  
Put it back together and call it artI look around, come back down  
Try to rearrange it once again  
You hold your own nervous to be strong  
You got it and you don't know what it isOnce you gain, time after time it's the same ol' wrong  
Change and you change it's the same ol' songOnce you gain, time after time it's the same ol' wrong  
Change and you change it's the same ol' songOnce you gainOnce you gain, time after time it's the same ol'  
wrong  
You change and you change it's the same ol' songTime after time it's the same ol' wrong  
Change and you change it's the same ol' songTime after time it's the same ol' wrong  
You change and you change  
You change and you change  
You change and you change  
You change and you change  
You change and you change  
You change and you change  
One new gain
