# Siberian Mist

## Witchthroat Serpent

White Siberian
Reaches the center of my brain
Destroys my cells
And disturbs my vision

---

Haze over my eyes
She's there to forget my pain
Weird vibration
Like the snake who blows behind my neck

---

Turned to white
Black creature burned
Turned to white
Black creature burned

---

Hazy electric sounds spin round you
Hazy electric sounds spin round you
Hazy electric sounds spin round you
Hazy electric sounds spin round yooooooooou
