

Siberian Mist

Witchthroat Serpent

White Siberian
Reaches the center of my brain
Destroys my cells
And disturbs my vision

Haze over my eyes
She's there to forget my pain
Weird vibration
Like the snake who blows behind my neck

Turned to white
Black creature burned
Turned to white
Black creature burned

Hazy electric sounds spin round you
Hazy electric sounds spin round you
Hazy electric sounds spin round you
Hazy electric sounds spin round yooooooooou
