

# Firestarter

[KDrew](#)

I close my eyes at night and hope that I would dream  
To get me out this place and on to better things  
Because I tried so hard and got so far to let this slip away  
And I refuse to let someone put out my flame. You gotta try much harder.

Hold me underwater.

And you can make it darker.

Cause I will burn it all up.

Cause I'm a fire starter. I close my eyes at night and hope that I would dream  
To get me out this place and on to better things  
Because I tried so hard and got so far to let this slip away  
And I refuse to let someone put out my flame. You gotta try much harder.

Hold me underwater.

And you can make it darker.

Cause I will burn it all up.

Cause Ima.

bring the f\*cking beat back. I close my eyes at night and hope that I would dream  
To get me out this place and on to better things  
Because I tried so hard and got so far to let this slip away  
And I refuse to let someone put out my flame.
