

Big Love

Ben Lee

Tune in the radio, I'm searching for a station
Ready to work out in the comfort of vacation
If not beginning is the only way to fail
I'm done with lies, I'm done believing fairy tales I heard a song it's got a buzzing in my eardrum
No invitations now, I'm looking for a real one
I felt alone, I felt an emptiness around me
But then I looked inside I found big love, big, big love
I am a little crazy but my heart is true
Yeah, big love, big, big love
And I'm gonna give it all to you I got a memory of being in the ocean
Right where the melody and words
meet me in motion
I woke up crying, felt the tenderness around me
I saw that look in your eyes It was a big love, big, big love
You're a little crazy but your heart is true
Yes, big love, big, big love
The biggest love I've ever bumped into It's not your parents
Yeah, yeah
It's not your TV
Yeah, yeah
It's not a bandit
Yeah, yeah
It's not your high school It's just a big love, big, big love
We're all a little crazy but our hearts are true
Yes, big love, big, big love
Made us forget the love we thought we knew I got a question, I've been patient for an answer
I got a victory born out of a disaster
And all that time, I felt the taking was
And now that sounded in years And it's a big love, big, big love
I'm a little crazy but my heart is true
Yes, big love, big, big love
The biggest love you've ever bumped into It's not a secret
Yeah, yeah
It's not religion
Yeah, yeah
It's not your history
Yeah, yeah
It's not a gamble It's just a big love, big, big love
I'm a little crazy but my heart is true

It's a big love, big, big love
And I'm gonna give it all to you And I'm gonna give it all to you
And I'm gonna give it all...to you
