Time Got No Time To Wait For Me

The Hellacopters

My intension was to stand on my feet
But I had to lay down I was feeling beat
From a race I really thought I could win
I was beat before I even had a chance to begin
How could I evre believe I'd do fine
Against my invincible opponent and no finishing line

Gotta slow down gotta learn how to dance
If I can't keep up I haven't got a chance
It's flying by while I'm stuck in my seat
I would need a starship to compete
To get me off of my knees
Time got no time to wait for me

I was looking for the times that I spent
Looked at yesterday for where the hell it went
I even checked the year before that
You know I checked everywhere but where it was at
Right here and now is the place
Where I might catch a glimpse before it's gone without a trace

Gotta slow down gotta learn how to dance
If I can't keep up I haven't got a chance
It's flying by while I'm stuck in my seat
I would need a starship to compete
To get me off of my knees
Time got no time to wait for me
