Forget the Day

The Muffs

Forget the day I really knocked down a '
What were you doing
Forget the day I prayed for you
I don't got so much to doForget the day until the end
And now I'm saying to all
Forget the day
I really don't want to work any way
Today I'm not breakin' in
And I will be on my money tooIt's easy to be around
Forget the day
This is the endEvery day is a busy day
You should believe it" true
Every day is another day
