

Love Me Back

Kenny Lattimore

What a good feeling
To know that I got someone so perfect, yeah
It's like paradise girl
When I'm in it, yeah
So let go of your worries tonight, yeah You and I, we can go all the way
'Cause you're the one
That makes me feel some kind of way
Let's take our time, baby
We got all night
The only one on my mind
Girl if you're ready
You can love me back,
Love, love, love me back
As much as you want, baby
Love, love, love me back
All night long, girl
Love, love, love me back
I know that you will love me
Love me, love, love me back I must be in heaven
I promise that it can't get no better
(No better, no)
With you it's something I will never
(Regret, baby)
I cherish every moment in my heart I know that you and I
We can go all the way
'Cause you're the one
That makes me feel some kind of way
Let's take our time
We got all night
Will it be blowing my mind
I know that you will always love me back, baby
Love, love, love me back
Love me back, baby
Love, love, love me back
Love me, love me back baby
Love me back, I know that you will
Love me, love, love me back
