Moment in Time

Rexxy

Waiting for this moment passing by
to let you know
watching you for hours for this warning
to let you go
Waiting for the time I know is great
you know it's timeWatching you all night
I know it's you
I know it's youWishing you already knew this time
what's on your mind
This is just the time to let you know
to let you knowTaking all the time you wanted
waiting for the time
You tried to understand me
but you failed and made me tryWalking we go, take your plans out
Talking we know, take your heart
and we glowLately comes the end for me and I won't be
letting go
You're changing all your past on me and I won't
be there to know
You can follow me your time is up
and I need you
you're changing all your past on me and I won't
be letting goWalking we go, take your plans out
Talking we know, take your heart
and we glow
