

How Awesome You Are

Open Heaven

VERSE 1

How can I tell you just all that You are
Your spirit's like water, Your presence is like stars
Oh Lord, the Universe declares how awesome You are
The universe declares how holy You are

Oh oh oh, how awesome You are

Oh oh oh, how holy You are

VERSE 2

Your name is like fire, Your love is like branches
Your strength is like mountains, whitecapped with forgiveness

Let Your Spirit crash like waves on the shore

There is nothing else that we want more

Let Your Spirit fill us more than we can contain

Downpour Your presence like clouds full of rain

Rain down, rain down

Pour out, pour out
