Lost in Space

Apollo 440

Another star
Has fallen without sound
Another spark
Has burned out in the cold
Another door
To barrens standing open
And who is there
To tell me not to give and not to go?
How could I know? How could I know
That I'll get lost in space to roam forever?
How could I know? How could I see?
Feeling like lost in space to roam forever
I'm crawling down
The doorway to the badlands
And kicking down
Are you heard: it's to the black
And all the damage

Fading in the rear-view mirror
When the demons
Are calling me, they're dragging me away
How could I know? How could I know
That I'll get lost in space to roam forever?
How could I know? How could I see?
Feeling like lost in space to roam forever
Lost in space.
Lost in time.
Lost in space.
Lost in Time.
Lost in Space.
How could I know? How could I know?
How could I know? How could I know
That I'll get lost in space to roam for ever?
How could I now? How could I see
feeling like lost in space to roam forever?
Forever...
