Paulie shots I'm placeable, listen to the dreams you're dreaming
Untraceable, tell me now what are you scheming
I'm placeable to the place where you most fear
Untraceable, so help me dear I'm placeable innate yet surely substantial
To repay you fade away
Sweetness smells so sweet I your feet
Just to repay your fade away I'm placeable, I have no place now
Untraceable to your jaded vows
I'm placeable, no more of your face
I'm placeable, so help me please I'm placeable innate yet surely substantial
To repay you fade away
Sweetness smells so sweet I your feet
Just to repay your fade away Kill the man become the monster
Kill the man become the monster
Kill the man become the monster
Kill the man become the monster
You are a sick individual, you are so sincere I'm the one hid under your bed
Increase your dreams and you know it well
Yeah, I'm the one hid under your bed
Increase your dreams and I know it well, hell I'm placeable, recognize that you're most favored
Untraceable, tell me now what are we made of
I'm placeable to the place where you most fear
Untraceable so help me dear I'm placeable innate yet surely substantial
To repay you fade away
Sweetness smells so sweet I your feet
Just to repay your fade away Kill the man become the monster
Kill the man become the monster
Kill the man become the monster
Kill the man become the monster
You are a sick individual, you are so sincere I'm the one hid under you bed
Increase your dreams and you know it well, yeah
I'm the one hid under your bed

Increase your dreams and you know it well Kill the man become the monster

Kill the man become the monster

Kill the man become the monster Kill the man become the monster

Kill the man become the monster

Kill the man become the monster

Kill the man become the monster Kill the man become the monster

Kill the man become the monster

Kill the man become the monster

Kill the man become the monster

Sincere
