

Drops Me Down

[Lisa Loeb](#)

I walked away to get wisdom
But in the end I just walked home
And it drops me, drops me down
And I'm not feeling so good again
It was the same song and it's making me sad
'Cause I think that it's happened
And it hasn't been had
And it drops me, drops me down
And I'm not feeling so good again
And I'm injured again
Yeah, it's sick and I'm sucked in
Yeah, I'm at it again
It's sick and I'm sucked in
It's sick and I'm sucked in
'Cause I had some things so dear
Slip away and leave me here
And it drops me, drops me down
And I'm not feeling so good again
Yeah, it drops me, drops me down
And I'm not feeling so good again
