Underdose

[Inme](#)

I don't know how to fit inside,
All you do is try and leave me behind,
I don't know what to do,
Something is killing me.
I don't how to turn you on,
All you do is try and lead me on,
I don't know what to do,
Something here is telling me to kill you.
[Chorus:]It's all gone wrong, it's all gone wrong,
It's falling perfect fumes,
It's all gone wrong, it's all gone wrong,
It's broken.
I don't know how to leave this life,
All I have is maybe suicide,

I don't know what to do,
Something is killing me.
I don't know how to reach the top,
All you do is try and scrape me off,
I don't know what to do,
Something here is telling me to kill you.
[Chorus]Never meant to hurt you, hurt you,
Never meant to hurt you, hurt
[Chorus]It's all gone wrong, it's all gone wrong,
It's falling perfect fumes,
It's all gone wrong, it's all gone wrong,
And I can't lose such a life
