

# Black Sunrise - Musumeci Remix

Francesco Chiocci

dont ever take the seer to a black sunrise, listen to the call des call  
pick up all the pieces from the way remind  
reluctant to get on with this song  
look in for a way into your journey tide  
look in for a way into your mind  
careful with the places you dont go to know  
love to show your sights

calling black sunwhite  
calling black sunrise  
black sunrise

black sunrise, rise 2x

(black sunrise)

you pick up the call before with the callers strike tic  
you pick up the time to know  
you forget the rhyme  
looking for a reason to get inside  
looking for a reason to inside my mind

im calling calling black sunright  
im calling for the corded signs  
pick up all the pieces on the way remind  
pick up what they left, pick up what they left us behind

i am afraid of places man  
accesses, illuminated  
dont, take me to  
the back of my mind

black sunrise, rise
