Virtual Reality

Alexia

This is a dream
So let me take you on a trip
This is a dream, a virtual realityThere's a crazy world around me
You know the way I feel
Tell me why we don't believe
In love and dreamsEvery time I long to save me
Never find the things I need
Keep on searching for some light
That shade my fears
This is a dream, a virtual realityVirtual reality is walking around you
Virtual reality is looking for you
Virtual reality is walking around you
Virtual reality is looking for you
Is looking for you, is looking for youWhen you feel yourself in danger
I feel the same way too
Time is getting our
We got to see it throughThis is a dream
A virtual realityVirtual reality is walking around you
Virtual reality is looking for you
Virtual reality is walking around you
Virtual reality is looking for you
Is looking for you, is looking for youSo let me take you on a trip
Let me take you on a rideA virtual reality
