

Talk About Love

Texas

Open yourself up and listen to what you're saying
It's no surprise to watch the game you're playing
Yea yea, watch yourself, you're slipping
Yea yea, you give it out, you're giving
It's hard to see what you have never known how
You're at the bottom so get back up and turn it out
Yea yea, I can see you falling
Yea yea, I know I hear you calling
Love
All that you talk about is love
L-O-V-E, love
That's all you talk about
Why can't you let go, voice what you are feeling?
Why such an ogle, what's the big deal, hey
Yea yea, I can feel it coming
Yea yea, I know that it's coming
So you don't speak but you know that I can hear you
You're not unique, there's a million others like you
Yea yea, I can feel you breathing
Yea yea, it's time for you to reel it in
Love
All that you talk about is love
L-O-V-E, love
That's all you talk about
Yea, love
L-O-V-E, love
That's all you talk about, love
That's all you talk about
Yea, love
All you talk about is love
All that you talk about's love
L-O-V-E, love
Yea, love
That's all you talk about, it's love
That's all you talk about, it's love
L-O-V-E, love
Love
All you talk about is love
All that you talk about is love

L-O-V-E, love
Love
All you talk about is love
L-O-V-E, love
That's all you talk about
