

These Days

Professional Murder Music

Watching your face, I can't believe I'm still here
Why did these days bleed like I said?
Do you wanna take a long hard look back?
To know if I feel right now, it's everything We're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you have Why can't you go away?
I can't stand your face right here now
Why can't you go away? Is this the only place, I know I'll hate to find out
I could never think of this end
Do you wanna tell me things I don't know
Before I start the burning inside? We're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you have Why can't you go away?
I can't stand your face right here now
Why can't you go away? We're the life you dreamt, such a perfect day
I can almost see outside this place that I left alone too long ago
I don't like the scars how they slip away
Now I'm taking everything you have Why can't you go away?
I can't stand your face right here now
Why can't you go away? Why can't you go away?
I can't stand your face right here now
Why can't you go away?
