Under

Pleasure P

Callin' my river to let her know
I'ma be on my way
Missin' how the river flow even though
It's only been a couple of days'Cause it be raining and complaining you
Got that water made for drinking up
Baby if I drown tonight it's all worth it for you
I don't need no rescueI'ma hold my breath until you feel it in your chest
When I go under, under
I ain't coming up until you scream and knock it off
When I go under, underYou be making waves, my ship's here to stay
I got what it takes to swim up in it all day
I want you to shake it, later tell me it was great
When I go under, underGirl relax, captain can handle that
I'ma take this cruise real slow
Heading to paradise, close your eyes
All you gotta do is let it goThe way your body flow, it's a private show
And I can't stop until it's spilling over
It's a sight to see you and it's calling me
Telling me your body's getting closerI'ma hold my breath until you feel it in your chest
When I go under, under
I ain't coming up until you scream and knock it off
When I go under, underYou be making waves, my ship's here to stay
I got what it takes to swim up in it all day
I want you to shake it, later tell me it was great
When I go under, underI'm jumping in, no lifesaver
Don't know when I'm coming up
Deep sea diving in your treasure
I'm giving you all this pleasureOoh girl, I'm so into you
So deep I don't know what to do
Just let the water flow
Till the tidal wave washes us ashoreI'ma hold my breath until you feel it in your chest
When I go under, under
I ain't coming up until you scream and knock it off
When I go under, underYou be making waves, my ship's here to stay
I got what it takes to swim up in it all day
I want you to shake it, later tell me it was great
When I go under, underUnder, under
Under, under
