

# Notes In Constellations

## Chiodos

I see her smile in her sleep  
I know that she's a dreamer  
I'll follow every move she makes  
It's been a long, long night  
Say you're mine,  
Say you're mine  
Can I keep you tonight?  
Tonight,  
And we dance around just like constellations  
You keep my body warm  
And we dance around just like constellations  
You're keeping me awake at night  
You make my body warm  
And I fall for her like snow from the sky  
Gracefully I land in her arms  
But I've melted away like snow onto the ground  
I told her, I've got to go  
I've got to go!  
And we dance around just like constellations  
You keep my body warm  
And we dance around just like constellations  
You're keeping me awake at night  
You make my body warm  
It's been a long, long night  
You said you're mine  
I felt so bad, but I had to go  
No she never wanted me to leave her behind  
No she never wanted me to leave her  
(To leave her)  
(So long, so long)  
And we dance around just like constellations  
We dance around just like constellations  
We dance around, we dance around  
We dance around (dance around),  
We dance around (dance around)  
You make my body warm  
You make my body warm
