

# South Carolina

## Orca Orca

The other day my neighbor has a dented bike  
Second day he called me from intensive care  
Says he needs a picture of the dented bike  
For the evidence of what a wreck he had

Accident

Accident

Lift that fork, eat that snail

Garcon summoned, have a new cocktail

Lift that fork, eat that snail

Garcon summoned, have a new cocktail

Crash my bicycle

Crash my bicycle

In a big south carolina wreck

I crash my bicyle

Crash my bicycle

Crash my bicycle

In a big south carolina wreck

I crash my bicyle

And I won some damages and they were punitive  
By which I mean the punishment was damaging

It crushed my head

It crushed my head

Garcon, where's my drink?

Wreck!

Observe the front wheel spinning upside down  
Wreck!

The red reflector fragments strewn around  
Wreck!

The back wheel's 'o' is now a letter 'd'  
Wreck!

I was an 'i' and now I am a 'v'

Lift that fork, eat that snail

Garcon summoned, have a new cocktail

Lift that fork, eat that snail

Garcon summoned, have a new cocktail

Crash my bicycle

Crash my bicycle

In a big south carolina wreck

I crash my bicyle

Crash my bicycle  
Crash my bicycle  
In a big south carolina wreck  
I crash my bicyle  
If I had to do it all again, buy\* bicycle  
If I had to do it, I would crash my bicycle  
I'd crush my head  
Collect the bread

Crash my bicycle  
Move along folks  
Push her back there, move along  
Show's over, folks  
Let him breathe, step lively  
Move along folks  
Push her back there, move along  
Show's over, folks  
Let him breathe, step lively
