

Put It On My Face

Tha Joker

[Verse 1:] I might just play orthodontist when I turn you out
Might part yo pussy lips and look off in yo other mouth
I'm finna bring dat nut up outcha
I'm a lay on my back
You gon smile and tell me Joker I don't need all of dat
But

[Chorus:] I say fuck watcha say
I love da way ya taste
My hands up on ya waist
You running like a race
My tongue between ya legs ya eyes up in ya head
You think I was a butter knife da way I got you spreaded
Put it on my face [x4]

I say girl put it on my face my face my face my face my faaaaace

[Verse 2:] See you gon get about 69 rounds with Mr. Joker 2 Cold

Yep my face wet but you gon pull some pubic hairs out yo nose

You gone dance for me so I can see just wat dat ass drop like

Hit you from behind like a Hoopdie at a Stop Light

Bet dat'll make you act right or maybe play pretend

I say girl where are yo manners, cause dat pussy breaking wind

See ya know wat time it is wet & gushy, str8 foam

I'm hearin' ya call my name like it was saved in your phone

Now ya all on my dome

Butt naked, clit dripping, skin slapping, ass smaking

See this is my mission

I'm a bring dat nut up outcha

I'm a lay on my back

You gon smile and tell me Joker I don't need dat but

So

[Chorus:] Fuck watcha say

I love da way ya taste

My hands up on ya waist

You running like a race

My tongue between ya legs ya eyes up in ya head

You think I was a butter knife da way I got you spreaded

Put it on my face [x4]

I say girl put it on my face my face my face my face my faaaaace

[Bridge:] Shawty wat it do

Fuck da bedroom
Sit you on da stove I have an appetite for you
And if you freaky as you say you are then leave yo lingure
Gotta question for you bay
Can you put that on my face
[Verse 3:]Her pussy is gon slide onto my face tonight
I'm a bake dat cake tonight
So when dinner come round
Now shit dats all I'm gon taste tonight
Girl you say you flexable well I am extra sexual
Give her dick until she tell me she don't want no dick no mo
So let's crank dat afta play
Look we both get afta play
Get da cool whip and apples bay
Also forget yo lingerie
Butt naked on yo front room sofa
Gripping on yo ass
Strolling like a rollercoaster
[Chorus:]I say fuck watcha say
I love da way ya taste
My hands up on ya waist
You running like a race
My tongue between ya legs my eyes between ya head
I think I want sum cutty now da way I got you spreaded
Put it on my face[4x]
I say girl put it on my face my face my face my face my faaaaace
