No Interest

The Epoxies

They cruise in unmarked vans
Your parts are in their hands
Control you with a shack of light
They're done with tv screens
They're using laser beams
You'll dream of microwaves tonightUh-oh
NoYou can resist the call
Go to the shopping mall
There's just so much for you to buy
They're everywhere you go
They are inside your home
There is no point in asking why
You're so much happier
Your life is such a blur
There is no interest till you dieUh-oh
(How can I resist you?)
Uh-oh
(How can I resist you?)
NoOh no I'm losing the game again
Uh-oh consuming in vein again
Oh no I'm trying the frame again
I think I'll lose at this game again
