

# Satans Child

[Danzig](#)

Who do you turn to  
When you got no soul to sell?  
Where can you run to  
When you live no place but Hell? Turn it up, turn it loose  
Let that bad boy breathe  
Burn it up, burn it loose  
Like they never seen Godless, Satan's child  
God don't love no Satan's child  
Godless, Satan's child  
God don't love no Satan's child Who can you go to  
When your life is on the block?  
Who do you pray to  
When your darkest hours come? Turn it up, turn it loose  
Turn out the dead  
Burn it up, burn it loose  
On the road of Cain Godless, Satan's child  
God don't love no Satan's child  
Godless, Satan's child  
God don't love no Satan's child Godless  
(You see the sign up ahead)  
Satan's child  
(All you who enter lose all hope) God don't love no  
(Check my I.D., see who I am)  
Satan's child  
(Six and Six and Six is my name) Godless, Satan's child  
God don't love no Satan's child
