Charmed Life

Homero Espinosa

You know I live a charmed, charmed life
I look out to my left and I look to my right
It's simple but in front of me, in back of me
Is nothing more than ecstasy
A charmed, charmed life
You know we live a charmed, charmed life
A little breath of magic and we roll the dice
Now, my darling, I'm for you and you're for me
We are each other's luxury
A charmed, charmed life
Come on over, baby, kiss me once then twice
Whisper to me softly low, that makes me feel so nice
Come on over darling, and take me to that place
The one that puts a smile upon my face
That says we lead a charmed, charmed life
Just take a little look into each other's eyes
Our biggest little fantasy has turned into reality
You know we live a charmed, charmed life
Come on over, baby, kiss me once, then twice
Whisper to me softly low, that makes me feel so nice
Come on over darling, and take me to that place
The one that puts a smile upon my face
That says we lead a charmed, charmed life
I look out to my left and I look to my right
It's simple but in front of me, in back of me
Is nothing more than ecstasy
A charmed, charmed life
You know we live a charmed, charmed life
That's it, a little charmed, charmed life
