

Come What May

Air Supply

When she looks at me
I know the girl sees things nobody else can see
All of the secret fears inside and all of the craziness I hide
She looks into my soul and reads me like nobody can And she doesn't judge the man
She just takes me as I am Come what may, she believes
And that faith is something I've never known before
Come what may, she loves me
And that love has helped me open a door
Making me love myself a little more When I turn away
She knows those are the times there's nothing she can say
Nothing that anyone can do and so she lets me live it through
And when I'm in my darkest hours of uncertainty She just simply lets me be
And goes right on loving me Come what may, she believes
And that faith is something I've never known before
Come what may, she loves me
And that love has helped me open a door
Making me love myself a little more And when it seems my dreams
Have all slipped through my fingers
When they just can't be found
I turn around and there they are
Shining in her eyes Come what may, she believes
And that faith is something I've never known before
Come what may, she loves me
And that love has helped me open a door
Making me love myself a little more Come what may, she believes
And that faith is something I've never known before
Come what may, she loves me
And that love has helped me open a door
