Come What May

Air Supply

When she looks at me I know the girl sees things nobody else can see All of the secret fears inside and all of the craziness I hide She looks into my soul and reads me like nobody canAnd she doesn't judge the man She just takes me as I amCome what may, she believes And that faith is something I've never known before Come what may, she loves me And that love has helped me open a door Making me love myself a little moreWhen I turn away She knows those are the times there's nothing she can say Nothing that anyone can do and so she lets me live it through And when I'm in my darkest hours of uncertaintyShe just simply lets me be And goes right on loving meCome what may, she believes And that faith is something I've never known before Come what may, she loves me And that love has helped me open a door Making me love myself a little moreAnd when it seems my dreams Have all slipped through my fingers When they just can't be found I turn around and there they are Shining in her eyesCome what may, she believes And that faith is something I've never known before Come what may, she loves me And that love has helped me open a door Making me love myself a little moreCome what may, she believes And that faith is something I've never known before Come what may, she loves me
