

Have You Seen Her Face

The Byrds

Have you seen her face her eyes reflect the colors in the sky
A warm familiar place to be swept into
Whenever she's close by makes me wonder whyRun by don't turn back
Can't hide from that look in her eyeMust be the way she walks a style made up to capture all she needs
No time to spend on loose talk
If your luck runs right she might see you tonight anything in sightRun by don't turn back
Can't hide from that look in her eyesRun by don't turn back
Can't hide from that look in her eyesYou'll find your locked in her spell all the sights and sounds
Your senses will be found
That only time will tell how much love can be to wait so patiently
Wait and seeRun by don't turn back
Can't hide from that look in her eyes
