

Freaky Eyes

Oneohtrix Point Never

Oh ya
Relax
I know
6178461212
You and me
Not far from dream
Here and there
Deep within
The freaky eyes had
The freaky eyes had
The whole plan
I have no head
If you're cold and you can't feel
You might find
You've already died
All of these weird objects
Are reflections of you
And they try
To change perception
When you're near
