

Wonderful

Silver Sun

Yeah-vaseline, put some pepper on it
Maybe margerine, into a crank rank

 Yeah-ultramarine

 Let me out, of this can of beans

 Let me out, of this can of beans

 Let me out, of this can of beans

 (chorus)

 And don't pass do we're not exactly stable

 I'm as still, as a shy sheep

 Gone to sleep on a little table

 I know why, you gotta try, stuck in the middle again

 Yeah-hard as a piece of wood and thick as a board

 Please can I be, as soft as a sponge and

 The soup has all gone cold

 Let me out, of this can of beans

 Let me out, of this can of beans

 Let me out, of this can of beans

 Nothing could be worse, it's wonderful of course

 If it goes right instead if wrong

 Fed up, fed up now, wonderful, wonderful, wonderful,

 Wonderful and wonderful

 (repeat chorus)
