Think About It

Red Alpha

(Just think about it!)
Put on some borrowed kicks
hang all your notions up
it's never what it is
wisdom is asking what;
There is another side
down where the rabbit lives...
My world will blow your mind
just have a look at it!

[Refrain] Think about it! (Just think about it!)
(Just think about it)

Don't got to change your mind
just try to open it;
I'll let you use my eyes
see what I'm dealing with;
People with different stories divided by
different categories and reasons why
this must be... The wise, they listen...

[Refrain] Think, think about it! (Just think about it!)
Think, think about it! (You got to think about it!)
Think about it! (C'mon and think about it!)

[Bridge]

There is another side
down where the rabbit lives;
I'll let you use my eyes,
see what I'm dealing with

[Refrain] Think, think about it! (Just think about it!)
