

# Walk Out

Matthew Sweet

Ahh

Ahh

Ahh

Ahh When you look into a mirror  
The reflection that you see  
Is a shell of what you were  
It's not who you want to be You're gonna change  
You just about made up your mind  
You're gonna change  
You're gonna change  
And when you leave it all behind  
What will the past remember?  
What will the future bring when you walk out?  
You walk out You were brought into this world  
With a head full of good ideas  
But the person you became  
Well you just couldn't be for real But you're gonna change  
You just about made up your mind  
You're gonna change  
You're gonna change  
And when you leave it all behind  
What will the past remember?  
What will the future bring when you walk out?  
You walk out You're gonna change  
You just about made up your mind  
You're gonna change  
You're gonna change  
And when you leave it all behind  
What will the past remember?  
What will the future bring when you walk out?  
You walk out You walk out  
You walk out  
You walk out
