

Where Peaceful Waters Flow

Gilbert O'Sullivan

When the world you live in
Really gets you down
When you feel a pain inside you
Starting to pound And the girl you love
She doesn't want to know
Let an old friend as a Godsend
Lead you to where peaceful waters flow And if the day you thought
Was drawing to a close
Just drags on and on till when
Only heaven knows And the car you bought
This morning doesn't go
Let an old friend as a Godsend
Lead you to where peaceful waters flow There you'll find much to your pleasure
That you haven't got a care
All the worries you had in you
Are no longer there Take my hand
And I will lead you to a place
Where the sun will warm your heart
With all of its rays And the sky at night
Has such a magic glow
It's a feeling unbelieving
In a land where peaceful waters flow Where you'll find much to your pleasure
That you haven't got a care
All the worries you had in you
Are no longer there Follow me
And I will lend you to a place
Where the sun will warm your heart
With all of its rays And the sky at night
Has such a magic glow
It's a feeling unbelieving
In a land where peaceful waters flow
Where peaceful waters flow Take me to where peaceful waters flow
Take me to where peaceful waters flow
Take me to where peaceful waters flow
Take me to where peaceful waters flow Take me back where peaceful waters flow
Take me back where peaceful waters flow
Take me back where peaceful waters flow
