Wasting Time

The Clarks

Well somethings going wrong inside of you
Burdens bearing down and seeping through
Well, I don't wanna bleed anymore for you
Oh and I don't wanna breathe any hatred too
Watching while your world just floats around
And now you want to move 'cause it's crashing down
Well, I don't wanna sing you guarantees
And I don't want to cling to our use to be's
So take your heart, just take your soul
Just get yourself on out of here
Just take your hurt, just take your pain
Just get yourself on out of here
Wasting time, time
That's all you'll do if you're waiting for me
Wasting time, time
I don't see what you think I see
Wasting time, time
That's all you'll do if you're waiting for me
Wasting time, time
I don't want what you think I need
Wasting time, time
That's all you'll do if you're waiting for me
Wasting time, time
I don't see what you think I see
Wasting time, time
That's all you'll do if you're waiting for me
Wasting time, time
I don't want what you think I need
